

## Sir William Blackstone (1723-1780) Pathfinder

Sir William Blackstone's *Commentaries on the laws of England* was published in four volumes, with the first appearing in 1765, and the subsequent three volumes appearing each year through 1769. Blackstone's *Commentaries* are described by the Oxford Dictionary of National Biography as follows<sup>1</sup>:

In some 2000 pages the common law's tortuous complexities were outlined in a manner at once authoritative, clear, elegant, and even engaging. While far from wholly laudatory or uncritical (of procedural complexities or excessively harsh criminal punishments, for example), the *Commentaries* depicted England's constitution and laws as reflecting the natural order of the cosmos, yet also rooted in the nation's distinctive historical development, like 'an old Gothic castle, erected in the days of chivalry, but fitted up for a modern inhabitant' (Blackstone, *Commentaries*, 3.268). Although mounting criticism tempered an initial highly favourable reception, Blackstone's *Commentaries* would become the most celebrated, widely circulated, and influential law book ever published in the English language.

The influence of the *Commentaries* is evident in the number of times it was reprinted, and the vast number of comments and subsequent works it inspired.

### Contents
